Empowering communities
Transformer la gestion des ressources naturelles
Renforcer le pouvoir d'agir des communautés

Position:	Monitoring & Evaluation Consultant, Knowledge for Impact
Location:	Remote (EST time zone preferred)
Deadline for applications:	Applications reviewed on a rolling basis

About Knowledge for Impact

Knowledge for Impact is a social enterprise established by IMPACT to support partners to confidently know what type of lasting change they are making on the ground. At the same time, it empowers local actors in the supply chain to own their data and claim its value to advance development, peace, and equality.

Knowledge for Impact deploys IMPACT's field-tested approaches to supply chain transparency in the natural resource sector, with deep expertise in monitoring and evaluation, supported by advanced and relevant technology adapted to local contexts. It develops innovative solutions with local partners to support transparency and enable artisanal producers and their communities to benefit from the value of the data they provide.

Monitoring & Evaluation Consultant

Knowledge for Impact is seeking highly experienced Monitoring & Evaluation (M&E) Consultants to join its roster of specialists available for contracts.

Consultants with the following specific areas of expertise are encouraged to apply:
- Proven experience in theories of change training and/or implementation.
- Experience in evaluating natural resource projects/ programs and community development, including experience with the private sector.
- Experience with digital monitoring and evaluation systems (i.e. mobile data management).
- Experience with Results-Based Management and logical frameworks.
- A solid understanding of rural development, with a focus on participatory processes and gender issues.
- An understanding of the role that artificial intelligence and machine learning play in the analysis and learning aspects of M&E.

Candidates must have the following qualifications, experience and skills:
- Bachelor's Degree in a relevant field.
- At least 10 years of experience of applying various M&E methods and approaches including quantitative, qualitative, and participatory.
- Experience in the planning, design, and implementation of M&E systems.
- Excellent written and verbal communication skills.

- Commitment to human rights, international development, gender equality, and improved natural resource management.
- Verbal and written fluency in both English and French.
- Excellent analytical, organizational and time management skills.
- An ability to manage a busy workload and respect deadlines with minimal supervision.
- An ability to work in a team that is bilingual and working globally.
